Whether you want to collect data for research, design a test or quiz, design an experiment with your students, or collect departmental data throughout the academic year, Qualtrics will work for you. In this workshop you will learn about Qualtrics, our campus-wide survey platform. You will learn how to set up a survey, distribute a survey to your colleagues, and view the results. If you are already familiar with Google Forms or SurveyMonkey, come learn about Qualtrics to see how this new program might fit your needs.
