

What's in this room?

Room System

The room system controls display settings for three "sources". Content can be sent to/displayed on any or all three of these sources using the settings on the touch panel.

The three sources are:

- Projector (front of room)
- Rear display (TV)
- Side display (TV)

There is a **stand-alone (TV) on the wall between the windows. (not connected to room system) - used for wireless presentation ONLY through an app called Solstice. (see Solstice Wireless presentation documentation).*

Four Solstice Pods for wireless presentation are installed in this room - 1 on each Large TV, 1 on the Main PC, and 1 on the stand-alone TV.

There is no laptop connection cable in this room. To present using your laptop or mobile device, you must connect to the Solstice.

****Solstice Local** (on either Rear or Side sources) - will only show your laptop on the source you connect to.*

****Solstice Main** (on instructor PC) - can choose to display laptop on any or all of the three sources.*

Technology and active learning tools

- Doc cam (connected to room system)
- eBeam interactive whiteboard (attached to whiteboards in front of room - whiteboard is labeled)
- Webcam at front of room for videoconferencing (above whiteboards)
- Webcam on instructor monitor for video assistance or web conference
- Large Huddle Board set on cart
- HDMI cable for Oculus Rift ONLY
- USB Hub
- Hanging small Huddle Boards (8) - in back of room
