

Electronics

Please silence all phones and plan to keep them put away throughout the duration of class. You are welcome to use your laptop or tablet during class to take notes or refer to online readings. However, as noted above, the success of this class is determined, in part, by your willingness to engage with the material and each other. Your use of your laptop or tablet should not come at the expense of your engagement with the class. At any point, I may ask that all electronic devices be completely put away.

-Centre College

Laptops may be used only for legitimate classroom purposes, such as taking notes, downloading class information from TWEN, or working on an in-class exercise. E-mail, instant messaging, surfing the Internet, reading the news, or playing games are not considered legitimate classroom purposes; such inappropriate laptop use is distracting to those seated around you and is unprofessional.

You will be expected to have daily access to the internet and email, since I will be emailing you constantly about assignment updates, additions and changes. All students at UCF are required to obtain a Knight's Email account and check it regularly for official university communications. If you do not own a computer, there are computer accessible to you in all UCF's computer labs, and most computer labs have computers connected to the internet. For further information on computer labs, please see the following website:

<http://guides.ucf.edu/c.php?g=78577&p=517810>.

-University of Central Florida

In this class our official mode of communication is through email. All communication between student and instructor and between student and student should be respectful and professional. As of 2009, Knight'smail is the only official student email at UCF. Class rosters list Knight'smail addresses rather than external email addresses, and all official class communications will be sent only to the Knight'smail addresses. Students are responsible for checking their Knight'smail accounts regularly. See www.knightsemail.ucf.edu for further information.

University of Missouri has a license agreement with Turnitin service that helps detect plagiarism by comparing student papers with Turnitin's database and Internet sources. Students who take this course agree that all required papers may be submitted to Turnitin. Students who submit papers to Turnitin retain the copyright to the work they created. A copy of submitted papers is retained in a Turnitin database archive to be compared with future submissions—a practice that helps protect and strengthen copyright ownership. Use of the Turnitin service is subject to the Terms and Conditions of Use posted on Turnitin's website at http://turnitin.com/en_us/about-us/privacy/#legal.

In this course we may utilize turnitin.com, an automated system which instructors can use to quickly and easily compare each student's assignment with billions of web sites, as well as an enormous database of student papers that grows with each submission. Accordingly, you may be expected to submit assignments in electronic format. After the assignment is processed, as an instructor I receive a report from turnitin.com that states if and how another author's work was used in the assignment. For a more detailed look at this process, visit <http://www.turnitin.com>.
