

Zoom Account Setup

Login using the web:

- Visit centre.zoom.us
- Login using your Centre credentials

From here you can view your profile, download the client, and schedule, host, or join a meeting. (Hosting or joining a meeting will automatically open in the app)

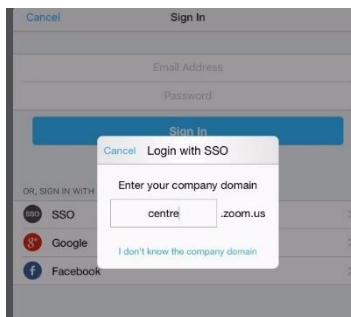

To login to the Zoom app:

- Start the app and click sign in.
- Click on the **SSO sign in method** as shown below:

This screenshot is from the desktop version of the Zoom app. The screen looks slightly different on an iPhone.

- Type **centre** in the text box asking for the company domain. * *you will only do this one time per device.*

- When you click Go, you'll be directed to the CentreNet login screen.
- Type in your Centre credentials and click login. It will likely ask you if you want to then open the Zoom app. Click open.
